Light information

Energy Saving Bulb: 2xE27 - 25W

Linear and essential. The new Rap seat provides a perfect synthesis of the traditional idea of the sofa with the modern nature of polyethylene produced with the rotational mould technique.

Created by SLIDE to Karim Rashid's design, Rap renews our collaboration with great international names, where light and colour is given maximum free rein. The white light-up version is now offered alongside a great variety of other colours.

The linear seat meets the enveloping backrest in this item whose apparently calm nature simply bursts with energy. Karim Rashid has designed this ideal product for both indoor and outdoor furnishing, especially for SLIDE.
