Italo Pertichini designs for SLIDE: Amélie, a stackable chair with beautiful, fluid lines, and the Amélie Duetto bench.

Created in the usual colours of red, green and grey, they are also available in new nuances of milk white, lavender and orange. Plus the added innovative benefit of making the chairs stackable solves all your space problems, increasing the product's practicality and versatility.

Equally perfect for homes and public use, Amélie and Amélie Duetto blend comfort and a light, practical design by making best use of polyethylene worked with the rotational mould technique.
